

Families are

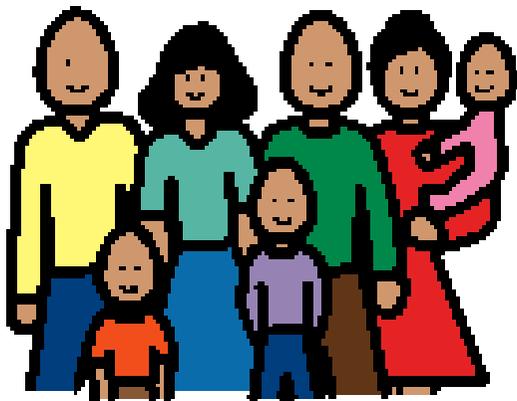

special even
when they
change.

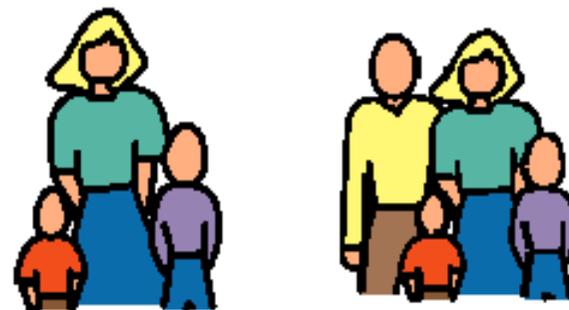

Everybody has a
family. Families are
very special.

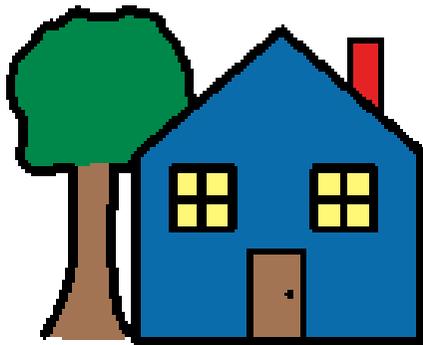

Some families are big and have lots of children.

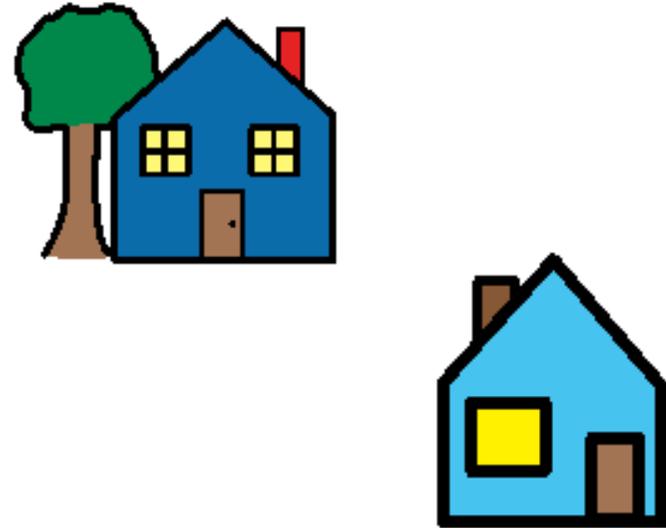

Some families can have one parent, or two parents and sometimes even more.

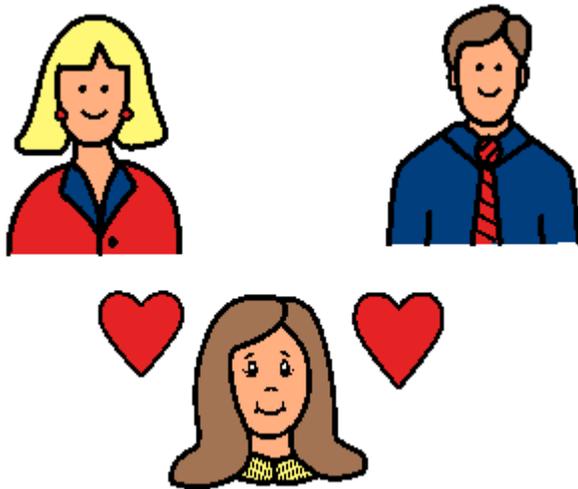

Some families
have a Mum and a
Dad that live in the
same house.

Sometimes the
Mum and the Dad
might live in a
different house.

Mums and Dads
love their children
very much even if
they don't live in
the same house.

It is sad when
Mum's and Dad's
don't live in the
same house
anymore but I can
be happy knowing
that they both love
me.

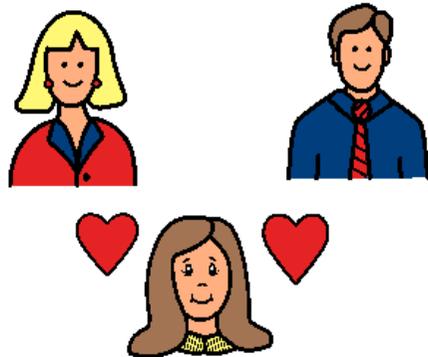

I can help myself
to feel happy and
loved by having
extra cuddles with
my Mum and with
my Dad.

I can feel happy by
having special time
with my Mum and
with my
Dad.

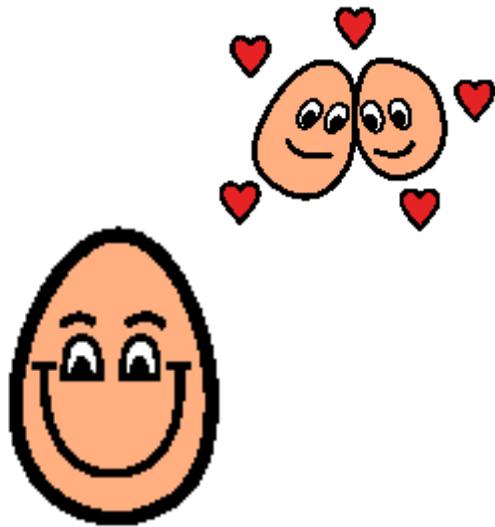

I know that even though Mum and Dad don't live in the same house anymore they both love me.

I know that Mum and Dad want to take care of me and help me to feel happy and safe.

My family love me
and I love them.
